- 1.2 On September 4, 2013, CEH provided a 60-day Notice of Violation of Proposition 65 to the California Attorney General, the District Attorneys of every county in California, the City Attorneys of every California city with a population greater than 750,000 and to Settling Defendant, alleging that Settling Defendant violated Proposition 65 by exposing persons to lead and lead compounds ("Lead") contained in Covered Products without first providing a clear and reasonable Proposition 65 warning.
- 1.3 Each Settling Defendant is a corporation or other business entity that manufactures, distributes, sells or offers for sale Covered Products that are sold in the State of California or has done so in the past.
- 1.4 On May 1, 2013, CEH filed the Complaint in the above-captioned matter. On December 6, 2013 each Settling Defendant was added to the case as a named defendant.
- 1.5 For purposes of this Consent Judgment only, CEH and Settling Defendant (the "Parties") stipulate that this Court has jurisdiction over the allegations of violations contained in the Complaint and personal jurisdiction over Settling Defendant as to the acts alleged in the Complaint, that venue is proper in the County of Alameda, and that this Court has jurisdiction to enter this Consent Judgment as a full and final resolution of all claims which were or could have been raised in the Complaint based on the facts alleged therein with respect to Covered Products manufactured, distributed, and/or sold by Settling Defendant.

2. INJUNCTIVE RELIEF

- **Specification Compliance Date.** To the extent it has not already done so, no more 2.1 than thirty (30) days after the date of entry of this Consent Judgment, to the extent Settling Defendant's Covered Products are manufactured by or supplied by a third party, Settling Defendant shall provide the reformulation specification set in Section 2.2 to each of such Covered Products suppliers and shall instruct each such Covered Products supplier to provide it with Covered Products that comply with the reformulation specification set forth in Section 2.2. If in the future Settling Defendant's Covered Products are manufactured by or supplied by a new third party that it has not previously provided with instructions regarding the reformulation specification set forth in Section 2.2, Settling Defendant shall provide the reformulation specification set forth in Section 2.2 prior to placing an initial order for Covered Products and instruct the new Covered Products supplier to provide it with Covered Products that comply with the reformulation specification set forth in Section 2.2. Settling Defendant shall retain records of communications sent to and received from suppliers that are related to the requirement of this Section 2.1 for a period of three (3) years from the date of entry of this Consent Judgment (the "Effective Date").
- 2.2 **Reformulation of Covered Products.** As of the Effective Date, Settling Defendant shall not purchase, manufacture, ship, sell or offer for sale Covered Products that will be sold or offered for sale in California that contain a concentration of more than thirty (30) parts per billion ("ppb") Lead by weight (the "Reformulation Level"), such concentration to be determined by use of a test performed by an accredited laboratory using inductively coupled plasma mass spectrometry (ICP-MS) equipment with a level of detection of at least ten (10) ppb that meets standard laboratory QA/QC requirements.
- 2.3 **Testing.** After the Effective Date, to ensure compliance with Section 2.2, Defendant shall conduct random testing of Covered Products and take the follow-up actions described in this section ("Validation Testing").

2.3.1 <u>Covered Products To Be Tested</u>: The products to be tested shall be selected at random from different production lots of the Covered Products that will be offered for sale in California. Testing to assess compliance with the Reformulation Level ("Validation Testing") shall be based on testing of either: (a) an aggregate sample of an entire retail package of a Covered Product; or (b) aggregate samples of not less than eight (8) ounces from a single production lot of a Covered Product. At Settling Defendant's option, a single sample of either (a) or (b), above, or the average test results of up to three (3) samples from the aggregate samples of either (a) or (b), above, can be utilized.

2.3.2 <u>Frequency Of Testing</u>: Following the Effective Date, Settling Defendant shall conduct Validation Testing on the Covered Products selected as set forth in Section 2.3.1 pursuant to the Test Protocol¹ in the frequency set forth in this Section. The number of Validation Tests performed during each calendar quarter starting on the Effective Date shall be based on the number of production lots of Covered Products that are manufactured during each such calendar quarter and that will be offered for sale in California.

2.3.2.1 If more than six (6) production lots of Covered Products that will be offered for sale in California are manufactured in a given calendar quarter, Settling Defendant shall conduct one Validation Test from each of up to six different production lots. In such a case, Settling Defendant shall ensure maximum possible dispersion of the testing among different Covered Products and different production lots of each Covered Product with no more than one Validation Test per production lot as set forth in Section 2.3.1. If there are fewer than six (6) production lots of Covered Products manufactured in a single calendar quarter that will be offered for sale in California, then Settling Defendant shall only be required to conduct one Validation Test per production lot manufactured in that calendar quarter, provided that Settling Defendant

The Test Protocol as used herein is as follows: testing shall be performed by an accredited

laboratory using inductively coupled plasma mass spectrometry (ICP-MS) equipment with a level

of detection of at least ten (10) ppb that meets standard laboratory QA/QC requirements and using sample preparation method as set out in FDA Elemental Analysis Manual section 4.7 or similar

conduct a minimum of three (3) Validation Tests in such calendar quarter. If there are less than three (3) production lots manufactured in a particular calendar quarter, Settling Defendant shall ensure maximum possible dispersion of the testing among different Covered Products and different production lots of each Covered Product. If there are no Covered Products manufactured in a given calendar quarter that will be offered for sale in California, Defendant is not required to conduct Validation Testing in that calendar quarter.

2.3.2.2 In the event that the Validation Testing demonstrates eight (8) calendar quarters of continuous compliance with the Reformulation Level, Settling Defendant may send written notice to CEH and thereafter reduce the frequency of Validation Testing starting in the calendar quarter following the provision of notice to CEH to up to three (3) tests per calendar quarter. If there are fewer than three (3) production lots of Covered Products manufactured in a single calendar quarter that will be offered for sale in California, then Settling Defendant shall only be required to conduct one (1) Validation Test per production lot manufactured in that calendar quarter. If there are no Covered Products manufactured in a given calendar quarter that will be offered for sale in California, Defendant is not required to conduct Validation Testing in that quarter.

2.3.2.3 In the event that the Validation Testing demonstrates an additional eight (8) calendar quarters of continuous compliance with the Reformulation Level, Settling Defendant may send written notice to CEH and thereafter shall no longer be required to conduct the Validation Testing.

2.3.3 Covered Products That Exceed Reformulation Level: If the Validation Testing results indicate that a production lot of a Covered Product exceeds the Reformulation Level, Defendant shall: (a) stop selling or offering for sale in California all Covered Products from the same production lot as that of the Covered Product that exceeded the Reformulation Level (the "Non-Compliant Products"); (b) send instructions to any of the stores and/or customers that offer the Non-Compliant Products for sale in California to cease offering the Non-Compliant Products for sale in California and, for Non-Compliant Products offered for sale in California, to either

return all of the Non-Compliant Products to Settling Defendant for destruction, or to directly destroy such Non-Compliant Products; and (c) provide CEH with the test result and records and correspondence documenting compliance with this Section. If there is a dispute over the corrective action related to any Non-Compliant Products, the Parties shall meet and confer before seeking any remedy in court.

- 2.3.4 The results, QA/QC and related documentation regarding the Validation Testing performed pursuant to this Consent Judgment shall be retained by Defendant for three (3) years and made available to CEH upon reasonable request.
- 2.3.5 The Parties agree that the Annie's Cinnamon Grahams and Annie's Honey Grahams products do not contain actionable levels of Lead. Accordingly, Settling Defendant shall not be obligated under this Section to conduct any testing on the Annie's Cinnamon Grahams and Annie's Honey Grahams products.
- 2.4 Good Faith Commitment to Pursue Further Lead Reduction. Settling

 Defendant shall continue to take, or cause to be taken, good faith and commercially reasonable efforts to further reduce the Lead content of its Covered Products with a goal of Covered Products having a consistent Lead content of seventeen (17) ppb or less. These efforts shall include, at a minimum, efforts to further adjust recipes and formulas that will reduce Lead content in Covered Products and attempts to secure Covered Product ingredients such as molasses and ginger with lower Lead content. Within fifteen (15) days of the Effective Date, and annually thereafter for two more years, Settling Defendant shall submit to CEH a written report of the activities it has undertaken to effectuate its good faith commitment under this paragraph. If Settling Defendant has test results demonstrating that all of its Covered Products have a consistent Lead content of seventeen (17) ppb or less and it provides such documentation to CEH, or if CEH and Settling Defendant otherwise agree in writing, then Settling Defendant need not submit any subsequent annual report to CEH pursuant to this paragraph.
