CASE NO. CGC-14-541224

STIPULATED CONSENT JUDGMENT;  
[PROPOSED] ORDER

Health & Safety Code § 25249.5 et seq.

Action Filed: August 18, 2014  
Trial Date: None set

24  
25 **1. INTRODUCTION**

26 **1.1** On August 18, 2014, Plaintiff Environmental Research Center, Inc. ("ERC"), a  
27 non-profit corporation, as a private enforcer, and in the public interest, initiated this action by  
28 filing a Complaint for Injunctive and Declaratory Relief and Civil Penalties (the "Complaint")

1 pursuant to the provisions of California Health and Safety Code section 25249.5 et seq.  
2 (“Proposition 65”), against NATURE’S ANSWER, INC. and BIO-BOTANICA, INC.  
3 (collectively “Nature’s Answer”); and 6 S, INC. dba ALL STAR HEALTH; LUCKY  
4 VITAMIN CORPORATION; VITACOST.COM, INC.; VITAMIN SHOPPE INDUSTRIES,  
5 INC.; and VITAMIN SHOPPE, INC. (collectively “the Retailers”); and DOES 1-50.  
6 Subsequently, the Second Amended Complaint (the “Second Amended Complaint”) was filed  
7 on November 25, 2014. In this action, ERC alleges that a number of products manufactured,  
8 distributed or sold by Nature’s Answer contain lead, a chemical listed under Proposition 65 as a  
9 carcinogen and reproductive toxin, and expose consumers to this chemical at a level requiring a  
10 Proposition 65 warning. These products (referred to hereinafter individually as a “Covered  
11 Product” or collectively as “Covered Products”) are:

- 12 (1) Nature’s Answer Tru Cleanse Fiber Chia Plus, Item #1728
- 13 (2) Nature’s Answer Inc. Gotu Kola Herb, Item #16262
- 14 (3) Nature’s Answer Inc. Gotu Kola Herb Extract, Item #16393
- 15 (4) Nature’s Answer Inc. Nettle Leaf, Item #16306
- 16 (5) Nature’s Answer Inc. Dandelion Root, Item #16166
- 17 (6) Nature’s Answer Inc. Di-Jest Herbal Blend, Item #16044
- 18 (7) Nature’s Answer Inc. Alfalfa Leaf Single Herb, Item #16110
- 19 (8) Nature’s Answer Inc. Dong Quai Root Single Herb, Item #16170
- 20 (9) Nature’s Answer Inc. Tense-Ease Herbal Blend, Item #16104
- 21 (10) Nature’s Answer Inc. Horsetail Grass Single Herb, Item #16274
- 22 (11) Nature’s Answer Inc. Bladderwrack Thallus Single Herb, Item #16130
- 23 (12) Nature’s Answer Inc. Ginger Rhizome Single Herb, Item #16218
- 24 (13) Nature’s Answer Advanced Botanical Fingerprint Technology Black  
25 Walnut, Item #16017
- 26 (14) Nature’s Answer Inc. Reishi Mushroom Extract Standardize, Item #16425
- 27 (15) Nature’s Answer Inc. Broncitone Herbal Blend, Item #16029

- 1 (16) Nature's Answer Inc. Echinacea Herb & Root & Goldenseal Root Herbal  
2 Blend, Item #16059
- 3 (17) Nature's Answer Inc. Advanced Botanical Fingerprint Technology Bacopa  
4 500mg, Item #16360
- 5 (18) Nature's Answer Advanced Botanical Fingerprint Technology Female  
6 Complex 800mg Blend, Item #16032
- 7 (19) Nature's Answer Inc. Hyssop Herb Single Herb, Item #16278
- 8 (20) Nature's Answer Inc. Echinacea Herb Single Herb, Item #16182
- 9 (21) Nature's Answer Inc. Red Clover Tops Single Herb, Item #16314
- 10 (22) Nature's Answer Inc. Advanced Botanical Fingerprint Technology Reishi  
11 1000 mg, Item #16322
- 12 (23) Nature's Answer Inc. Advanced Botanical Fingerprint Technology Slippery  
13 Elm 1050 mg, Item #16334
- 14 (24) Nature's Answer Inc. Burdock Root Single Herb, Item #16134
- 15 (25) Nature's Answer Inc. Valerian Root Single Herb, Item #16346
- 16 (26) Nature's Answer Inc. Butcher's Broom Root Single Herb, Item #16138
- 17 (27) Nature's Answer Inc. Detox Formula Herbal Blend, Item #16041
- 18 (28) Nature's Answer Inc. Bladdex Herbal Blend, Item #16020
- 19 (29) Nature's Answer Inc. Echinacea With Astragalus Herbal Blend, Item  
20 #16047
- 21 (30) Nature's Answer Inc. Advanced Botanical Fingerprint Technology  
22 Damiana 800mg, Item #16162
- 23 (31) Nature's Answer Inc. Greens Today Raw Superfood, Item #26425
- 24 (32) Nature's Answer Greens Today Vegan Formula, Item #26415
- 25 (33) Nature's Answer Greens Today Green Power Formula Cellular Energy,  
26 Item #26407
- 27 (34) Nature's Answer Greens Today Men's Formula, Item #26411
- 28 (35) Nature's Answer Greens Today Original Formula, Item #26400

1 (36) Nature's Answer Inc. Liver Support Herbal Blend, Item #16089

2 (37) Nature's Answer Greens Today Joint Formula French Vanilla Flavor, Item  
3 #26410. 26409

4 (38) Genceutic Naturals Plant Head Protein Chocolate, Item #26885

5 (39) Genceutic Naturals Plant Head Protein Vanilla, Item #26890

6 1.2 ERC is a California non-profit corporation dedicated to, among other causes,  
7 helping safeguard the public from health hazards by reducing the use and misuse of hazardous  
8 and toxic chemicals, facilitating a safe environment for consumers and employees, and  
9 encouraging corporate responsibility.

10 1.3 For purposes of this Consent Judgment, the parties agree that Nature's Answer Inc.  
11 and Bio Botanica, Inc. are business entities that have employed ten or more persons at all times  
12 relevant to this action, and each company qualifies as a "person in the course of business" within  
13 the meaning of Proposition 65. Nature's Answer manufactures, distributes and sells the Covered  
14 Products.

15 1.4 ERC and Nature's Answer are referred to individually as a "Party" or  
16 collectively as the "Parties."

17 1.5 The Second Amended Complaint is based on allegations contained in ERC's  
18 Notices of Violation dated February 14, 2014, May 23, 2014, and August 29, 2014, that were  
19 served on the California Attorney General, other public enforcers, and Nature's Answer and the  
20 Retailers ("Notices"). True and correct copies of the Notices are attached as Exhibit A and are  
21 hereby incorporated by reference. More than 60 days have passed since the Notices were  
22 mailed and uploaded to the Attorney General's website, and no designated governmental entity  
23 has filed a complaint against Nature's Answer or the Retailers with regard to the Covered  
24 Products or the alleged violations.

25 1.6 ERC's Notices and Second Amended Complaint allege that use of the Covered  
26 Products exposes persons in California to lead without first providing clear and reasonable  
27 warnings in violation of California Health and Safety Code section 25249.6. Nature's Answer  
28 and the Retailers deny all material allegations contained in the Notices and Second Amended

1 Complaint.

2       1.7 The Parties have entered into this Consent Judgment in order to settle,  
3 compromise and resolve disputed claims and thus avoid prolonged and costly litigation.  
4 Nothing in this Consent Judgment shall constitute or be construed as an admission by any of  
5 the Parties, or by any of their respective officers, directors, shareholders, employees, agents,  
6 parent companies, subsidiaries, divisions, affiliates, franchisees, licensees, customers, suppliers,  
7 distributors, wholesalers, or retailers. Except for the representations made above, nothing in  
8 this Consent Judgment shall be construed as an admission by the Parties of any fact, issue of  
9 law, or violation of law, nor shall compliance with this Consent Judgment be construed as an  
10 admission by the Parties of any fact, issue of law, or violation of law, at any time, for any  
11 purpose.

12       1.8 Except as expressly set forth herein, nothing in this Consent Judgment shall  
13 prejudice, waive, or impair any right, remedy, argument, or defense the Parties may have in any  
14 other or future legal proceeding unrelated to these proceedings.

15       1.9 The Effective Date of this Consent Judgment is the date on which it is entered as  
16 a Judgment by this Court.

17 **2. JURISDICTION AND VENUE**

18 For purposes of this Consent Judgment and any further court action that may become  
19 necessary to enforce this Consent Judgment, the Parties stipulate that this Court has subject matter  
20 jurisdiction over the allegations of violations contained in the Second Amended Complaint,  
21 personal jurisdiction over Nature's Answer as to the acts alleged in the Second Amended  
22 Complaint, that venue is proper in San Francisco County, and that this Court has jurisdiction to  
23 enter this Consent Judgment as a full and final resolution of all claims up through and including  
24 the Effective Date which were or could have been asserted in this action based on the facts alleged  
25 in the Notices and Second Amended Complaint.

26 **3. INJUNCTIVE RELIEF, REFORMULATION AND WARNINGS**

27       3.1 Beginning on the Effective Date, Nature's Answer shall be permanently  
28 enjoined from manufacturing for sale in the State of California, "Distributing into the State of

1 California”, or directly selling in the State of California, any Covered Product which exposes a  
2 person to a “Daily Lead Exposure Level” of more than 0.5 micrograms per day when the  
3 maximum suggested dose is taken as directed on the Covered Product’s label, unless it meets  
4 the warning requirements under Section 3.2.

5           3.1.1 As used in this Consent Judgment, the term “Distributing into the State  
6 of California” shall mean to directly ship a Covered Product into California for sale in  
7 California or to sell a Covered Product to a distributor that Nature’s Answer knows will sell the  
8 Covered Product in California.

9           3.1.2 For purposes of this Consent Judgment, the “Daily Lead Exposure  
10 Level” shall be measured in micrograms, and shall be calculated using the following formula:  
11 micrograms of lead per gram of product, multiplied by grams of product per serving of the  
12 product (using the largest serving size appearing on the product label), multiplied by servings  
13 of the product per day (using the largest number of servings in a recommended dosage  
14 appearing on the product label), which equals micrograms of lead exposure per day.

15           **3.2 Clear and Reasonable Warnings**

16           If Nature’s Answer is required to provide a warning pursuant to Section 3.1, the following  
17 warning must be utilized:

18           **WARNING: This product contains [a] chemical[s] known to the State of California to**  
19           **cause [cancer and] birth defects or other reproductive harm.**

20 Nature’s Answer shall use the phrase “cancer and” in the warning only if the maximum daily dose  
21 recommended on the label contains more than 15 micrograms of lead as determined by the  
22 methodology described in Section 3.1.2.

23 Nature’s Answer shall provide the warning on Nature’s Answer’s checkout page on its  
24 website when a California shipping address is provided. All Covered Products for which the  
25 warning applies shall be identified on the webpage in the same vicinity as the warning.

26 The warning shall be at least the same size as the largest of any other health or safety  
27 warnings also appearing on its website and the word “WARNING” shall be in all capital letters  
28 and in bold print. No other statements about Proposition 65 or lead may accompany the warning.

1           **3.3 Reformulated Covered Products**

2           A Reformulated Covered Product is one for which the Daily Lead Exposure Level when  
3 the maximum suggested dose is taken as directed on the Reformulated Covered Product's label,  
4 contains no more than 0.5 micrograms of lead per day as determined by the methodology  
5 described in Section 3.1.2.

6           **4. SETTLEMENT PAYMENT**

7           **4.1** In full satisfaction of all potential civil penalties, payment in lieu of civil  
8 penalties, attorney's fees, and costs, Nature's Answer shall make a total payment of \$90,000.00  
9 ("Total Settlement Amount") to ERC. The first payment in the amount of \$12,000.00 shall be  
10 due and owing within ten (10) days of the Effective Date and shall be followed by a total of  
11 four (4) consecutive monthly payments of \$12,000.00 and then two (2) consecutive monthly  
12 payments of \$15,000.00 with each of the six (6) consecutive monthly payments due and owing  
13 on the same day of the month as the day of the month the first payment was due (e.g., if the  
14 first payment is due on the 15<sup>th</sup> of the month, the second payment would be due on the 15<sup>th</sup> of  
15 the following month, and so on). Nature's Answer shall make this payment by wire transfer to  
16 ERC's escrow account, for which ERC will give Nature's Answer the necessary account  
17 information. The Total Settlement Amount shall be apportioned as follows:

18           **4.2** \$27,000.00 shall be considered a civil penalty pursuant to California Health and  
19 Safety Code §25249.7(b)(1). ERC shall remit 75% (\$20,250.00) of the civil penalty to the  
20 Office of Environmental Health Hazard Assessment ("OEHHA") for deposit in the Safe  
21 Drinking Water and Toxic Enforcement Fund in accordance with California Health and Safety  
22 Code §25249.12(c). ERC will retain the remaining 25% (\$6,750.00) of the civil penalty.

23           **4.3** \$9,115.54 shall be distributed to Environmental Research Center as  
24 reimbursement to ERC for reasonable costs incurred in bringing this action; and \$4,590.00  
25 shall be distributed to Environmental Research Center in lieu of further civil penalties, for the  
26 day-to-day business activities such as (1) continued enforcement of Proposition 65, which  
27 includes work, analyzing, researching and testing consumer products that may contain  
28 Proposition 65 chemicals, focusing on the same or similar type of ingestible products that are

1 the subject matter of the current action; (2) the continued monitoring of past consent judgments  
2 and settlements to ensure companies are in compliance with Proposition 65; and (3) giving a  
3 donation of \$255.00 to the Center For Environmental Health (CEH) to address reducing toxic  
4 chemical exposures in California.

5 4.4 \$15,900.00 shall be distributed to Philip T. Emmons as reimbursement of ERC's  
6 attorney's fees, \$12,000.00 shall be distributed to Karen Evans as reimbursement of ERC's  
7 attorney's fees, while \$21,394.46 shall be distributed to ERC for its in-house legal fees.

#### 8 5. MODIFICATION OF CONSENT JUDGMENT

9 5.1 This Consent Judgment may be modified only (i) by written stipulation of the  
10 Parties or pursuant to Section 5.4 and (ii) upon entry by the Court of a modified consent  
11 judgment.

12 5.2 If Nature's Answer seeks to modify this Consent Judgment under Section 5.1,  
13 then Nature's Answer must provide written notice to ERC of its intent ("Notice of Intent"). If  
14 ERC seeks to meet and confer regarding the proposed modification in the Notice of Intent, then  
15 ERC must provide written notice to Nature's Answer within thirty days of receiving the Notice  
16 of Intent. If ERC notifies Nature's Answer in a timely manner of ERC's intent to meet and  
17 confer, then the Parties shall meet and confer in good faith as required in this Section. The  
18 Parties shall meet in person or via telephone within thirty (30) days of ERC's notification of its  
19 intent to meet and confer. Within thirty (30) days of such meeting, if ERC disputes the  
20 proposed modification, ERC shall provide to Nature's Answer a written basis for its position.  
21 The Parties shall continue to meet and confer for an additional thirty (30) days in an effort to  
22 resolve any remaining disputes. Should it become necessary, the Parties may agree in writing  
23 to different deadlines for the meet-and-confer period.

24 5.3 In the event that Nature's Answer initiates or otherwise requests a modification  
25 under Section 5.1, and the meet and confer process leads to a joint motion or application of the  
26 Consent Judgment, Nature's Answer shall reimburse ERC its costs and reasonable attorney's  
27 fees for the time spent in the meet-and-confer process and filing and arguing the motion or  
28 application.

1           5.4     Where the meet-and-confer process does not lead to a joint motion or  
2 application in support of a modification of the Consent Judgment, then either Party may seek  
3 judicial relief on its own. In such a situation, the prevailing party may seek to recover costs and  
4 reasonable attorney's fees. As used in the preceding sentence, the term "prevailing party"  
5 means a party who is successful in obtaining relief more favorable to it than the relief that the  
6 other party was amenable to providing during the Parties' good faith attempt to resolve the  
7 dispute that is the subject of the modification.

8           **6.     RETENTION OF JURISDICTION, ENFORCEMENT OF CONSENT**  
9           **JUDGMENT**

10           6.1     This Court shall retain jurisdiction of this matter to enforce, modify or terminate  
11 this Consent Judgment.

12           6.2     If ERC alleges that any Covered Product fails to qualify as a Reformulated  
13 Covered Product (for which ERC alleges that no warning has been provided), then ERC shall  
14 inform Nature's Answer in a reasonably prompt manner of its test results, including information  
15 sufficient to permit Nature's Answer to identify the Covered Products at issue. Nature's Answer  
16 shall, within thirty (30) days following such notice, provide ERC with information  
17 demonstrating Nature's Answer's compliance with the Consent Judgment, if warranted. The  
18 Parties shall first attempt to resolve the matter prior to ERC taking any further legal action.

19           **7.     APPLICATION OF CONSENT JUDGMENT**

20           This Consent Judgment may apply to, be binding upon, and benefit the Parties and their  
21 respective officers, directors, shareholders, employees, agents, parent companies, subsidiaries,  
22 divisions, affiliates, franchisees, licensees, customers (excluding private labelers), distributors,  
23 wholesalers, retailers, predecessors, successors, and assigns. This Consent Judgment shall have no  
24 application to Covered Products which are distributed or sold exclusively outside the State of  
25 California and which are not used by California consumers.

26           **8.     BINDING EFFECT, CLAIMS COVERED AND RELEASED**

27           8.1     This Consent Judgment is a full, final, and binding resolution between ERC, on  
28 behalf of itself and in the public interest, and Nature's Answer, of any alleged violation of

1 Proposition 65 or its implementing regulations for failure to provide Proposition 65 warnings of  
2 exposure to lead from the handling, use, or consumption of the Covered Products and fully  
3 resolves all claims that have been or could have been asserted in this action up to and including  
4 the Effective Date for failure to provide Proposition 65 warnings for the Covered Products.  
5 ERC, on behalf of itself and in the public interest, hereby discharges Nature's Answer and its  
6 respective officers, directors, shareholders, employees, agents, parent companies, subsidiaries,  
7 divisions, affiliates, suppliers, franchisees, licensees, customers (not including private label  
8 customers of Nature's Answer), distributors, wholesalers, retailers, and all other upstream and  
9 downstream entities in the distribution chain of any Covered Product, the Retailers, and the  
10 predecessors, successors and assigns of any of them (collectively, "Released Parties"), from  
11 any and all claims, actions, causes of action, suits, demands, liabilities, damages, penalties,  
12 fees, costs and expenses asserted, or that could have been asserted, as to any alleged violation  
13 of Proposition 65 arising from the failure to provide Proposition 65 warnings on the Covered  
14 Products regarding lead.

15       **8.2** ERC on its own behalf only, on one hand, and Nature's Answer on its own  
16 behalf only, on the other, further waive and release any and all claims they may have against  
17 each other for all actions or statements made or undertaken in the course of seeking or opposing  
18 enforcement of Proposition 65 in connection with the Notices or Second Amended Complaint  
19 up through and including the Effective Date, provided, however, that nothing in Section 8 shall  
20 affect or limit any Party's right to seek to enforce the terms of this Consent Judgment.

21       **8.3** It is possible that other claims not known to the Parties arising out of the facts  
22 alleged in the Notices or the Second Amended Complaint and relating to the Covered Products  
23 will develop or be discovered. ERC on behalf of itself only acknowledges that this Consent  
24 Judgment is expressly intended to cover and include all such claims up through the Effective  
25 Date, including all rights of action therefore. ERC acknowledges that the claims released in  
26 Sections 8.1 and 8.2 above may include unknown claims, and nevertheless waives California  
27 Civil Code section 1542 as to any such unknown claims. California Civil Code section 1542  
28 reads as follows:

1 A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE  
2 CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER  
3 FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF  
4 KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS  
OR HER SETTLEMENT WITH THE DEBTOR.

5 ERC on behalf of itself only acknowledges and understands the significance and consequences  
6 of this specific waiver of California Civil Code section 1542.

7 8.4 Compliance with the terms of this Consent Judgment shall be deemed to  
8 constitute compliance with Proposition 65 by any releasee regarding alleged exposures to lead  
9 in the Covered Products as set forth in the Notices and the Second Amended Complaint.

10 8.5 Nothing in this Consent Judgment is intended to apply to any occupational or  
11 environmental exposures arising under Proposition 65, nor shall it apply to any of Nature's  
12 Answer's products other than the Covered Products.

### 13 9. SEVERABILITY OF UNENFORCEABLE PROVISIONS

14 In the event that any of the provisions of this Consent Judgment are held by a court to be  
15 unenforceable, the validity of the remaining enforceable provisions shall not be adversely affected.

### 16 10. GOVERNING LAW

17 The terms and conditions of this Consent Judgment shall be governed by and construed in  
18 accordance with the laws of the State of California.

### 19 11. PROVISION OF NOTICE

20 All notices required to be given to either Party to this Consent Judgment by the other shall  
21 be in writing and sent to the following agents listed below by: (a) first-class, registered, or certified  
22 mail; (b) overnight courier; or (c) personal delivery. Courtesy copies via email may also be sent.

15 Facsimile: (916) 791-0175

14 **12. COURT APPROVAL**

15 **12.1** Upon execution of this Consent Judgment by the Parties, ERC shall notice a  
16 Motion for Court Approval. The Parties shall use their best efforts to support entry of this  
17 Consent Judgment.

18 **12.2** If the California Attorney General objects to any term in this Consent Judgment,  
19 the Parties shall use their best efforts to resolve the concern in a timely manner, and if possible  
20 prior to the hearing on the motion.

21 **12.3** If this Consent Judgment is not approved by the Court, it shall be void and have  
22 no force or effect.

23 **13. EXECUTION AND COUNTERPARTS**

24 This Consent Judgment may be executed in counterparts, which taken together shall be  
25 deemed to constitute one document. A facsimile or .pdf signature shall be construed as valid as  
26 the original signature.

27 **14. DRAFTING**

28 The terms of this Consent Judgment have been reviewed by the respective counsel for each

1 Party prior to its signing, and each Party has had an opportunity to fully discuss the terms with  
2 counsel. The Parties agree that, in any subsequent interpretation and construction of this Consent  
3 Judgment entered thereon, the terms and provisions shall not be construed against any Party.

4 **15. GOOD FAITH ATTEMPT TO RESOLVE DISPUTES**

5 If a dispute arises with respect to either Party's compliance with the terms of this Consent  
6 Judgment entered by the Court, the Parties shall meet in person or by telephone and endeavor to  
7 resolve the dispute in an amicable manner. No action or motion may be filed in the absence of  
8 such a good faith attempt to resolve the dispute beforehand. In the event an action or motion is  
9 filed, however, the prevailing party may seek to recover costs and reasonable attorney's fees. As  
10 used in the preceding sentence, the term "prevailing party" means a party who is successful in  
11 obtaining relief more favorable to it than the relief that the other party was amenable to providing  
12 during the Parties' good faith attempt to resolve the dispute that is the subject of such enforcement  
13 action.

14 **16. ENTIRE AGREEMENT, AUTHORIZATION**

15 **16.1** This Consent Judgment contains the sole and entire agreement and  
16 understanding of the Parties with respect to the entire subject matter herein, and any and all  
17 prior discussions, negotiations, commitments and understandings related hereto. No  
18 representations, oral or otherwise, express or implied, other than those contained herein have  
19 been made by any Party. No other agreements, oral or otherwise, unless specifically referred to  
20 herein, shall be deemed to exist or to bind any Party.

21 **16.2** Each signatory to this Consent Judgment certifies that he or she is fully  
22 authorized by the Party he or she represents to stipulate to this Consent Judgment. Except as  
23 explicitly provided herein, each Party shall bear its own attorney's fees and costs.

24 **17. REQUEST FOR FINDINGS, APPROVAL OF SETTLEMENT AND ENTRY OF**  
25 **CONSENT JUDGMENT**

26 This Consent Judgment has come before the Court upon the request of the Parties. The  
27 Parties request the Court to fully review this Consent Judgment and, being fully informed  
28 regarding the matters which are the subject of this action, to:

1 (1) Make the findings pursuant to California Health and Safety Code section  
2 25249.7(f)(4), approve the Settlement, and approve this Consent Judgment.

3 **IT IS SO STIPULATED:**

**NOTICE OF VIOLATIONS OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

**Nature's Answer, Inc.**

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

**Nature's Answer Tru Cleanse Fiber Chia Plus - Lead**  
**Nature's Answer Inc. Gotu Kola Herb - Lead**  
**Nature's Answer Inc. Gotu Kola Herb Extract - Lead**  
**Nature's Answer Inc. Nettle Leaf - Lead**  
**Nature's Answer Inc. Butcher's Broom Root - Lead**  
**Nature's Answer Inc. Dandelion Root - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least May 9, 2009, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

---

Karen A. Evans

**Attachments**

- Certificate of Merit
- Certificate of Service
- OEHHA Summary (to Nature's Answer, Inc. only)
- Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center's Notice of Proposition 65 Violations by Nature's Answer, Inc.**

I, Karen A. Evans, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: February 14, 2014

*Karen A. Evans*

Karen A. Evans

**CERTIFICATE OF SERVICE**

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On February 14, 2014, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a US Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current CEO or President  
Nature's Answer, Inc.  
75 Commerce Drive  
Hauppauge, NY 11788

Current CEO or President  
Nature's Answer, Inc.

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Governor's List."*** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in a Food.** Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4)

### *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

### *FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...*

NOTICE OF VIOLATIONS OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.*  
(PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

Nature's Answer, Inc.

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

1. Nature's Answer Inc. Di-Jest Herbal Blend - Lead
2. Nature's Answer Inc. Alfalfa Leaf Single Herb - Lead
3. Nature's Answer Inc. Dong Quai Root Single Herb - Lead
4. Nature's Answer Inc. Tense-Ease Herbal Blend - Lead
5. Nature's Answer Inc. Horsetail Grass Single Herb - Lead
6. Nature's Answer Inc. Bladderwrack Thallus Single Herb - Lead
7. Nature's Answer Inc. Ginger Rhizome Single Herb - Lead
8. Nature's Answer Advanced Botanical Fingerprint Technology Black Walnut - Lead
9. Nature's Answer Inc. Reishi Mushroom Extract Standardized - Lead
10. Nature's Answer Inc. Bronchitone Herbal Blend - Lead
11. Nature's Answer Inc. Echinacea Herb & Root & Goldenseal Root Herbal Blend - Lead
12. Nature's Answer Inc. Advanced Botanical Fingerprint Technology Bacopa 500mg - Lead
13. Nature's Answer Advanced Botanical Fingerprint Technology Female Complex 800mg Blend- Lead
14. Nature's Answer Inc. Hyssop Herb Single Herb - Lead
15. Nature's Answer Inc. Echinacea Herb Single Herb- Lead
16. Nature's Answer Inc. Red Clover Tops Single Herb - Lead
17. Nature's Answer Inc. Advanced Botanical Fingerprint Technology Reishi 1000 mg - Lead
18. Nature's Answer Inc. Advanced Botanical Fingerprint Technology Slippery Elm 1050 mg- Lead

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*  
May 23, 2014  
Page 2

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least May 23, 2011, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

---

Karen A. Evans

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center's Notice of Proposition 65 Violations by Nature's Answer, Inc.**

I, Karen A. Evans, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: May 23, 2014

*Karen A. Evans*

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Governor's List."*** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in a Food.** Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4)

### *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

### *FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...*

**NOTICE OF VIOLATIONS OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violators and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violators identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violators and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violators identified below.

**Alleged Violators.** The names of the companies covered by this notice that violated Proposition 65 (hereinafter the "Violators") are:

**Bio-Botanica, Inc.  
D-D Chemco., Inc.**

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

1. Nature's Answer Tru Cleanse Fiber Chia Plus- Lead
2. Nature's Answer Inc. Gotu Kola Herb - Lead
3. Nature's Answer Inc. Gotu Kola Herb Extract - Lead
4. Nature's Answer Inc. Nettle Leaf - Lead
5. Nature's Answer Inc. Butcher's Broom Root - Lead
6. Nature's Answer Inc. Dandelion Root - Lead
7. Nature's Answer Inc. Di-Jest Herbal Blend - Lead
8. Nature's Answer Inc. Alfalfa Leaf Single Herb - Lead
9. Nature's Answer Inc. Dong Quai Root Single Herb - Lead
10. Nature's Answer Inc. Tense-Ease Herbal Blend - Lead
11. Nature's Answer Inc. Horsetail Grass Single Herb - Lead
12. Nature's Answer Inc. Bladderwrack Thallus Single Herb - Lead
13. Nature's Answer Inc. Ginger Rhizome Single Herb - Lead
14. Nature's Answer Advanced Botanical Fingerprint Technology Black Walnut - Lead
15. Nature's Answer Inc. Reishi Mushroom Extract Standardized - Lead
16. Nature's Answer Inc. Broncitone Herbal Blend - Lead
17. Nature's Answer Inc. Echinacea Herb & Root & Goldenseal Root Herbal Blend - Lead

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*

May 23, 2014

Page 2

18. Nature's Answer Inc. Advanced Botanical Fingerprint Technology Bacopa 500mg - Lead
19. Nature's Answer Advanced Botanical Fingerprint Technology Female Complex 800mg Blend- Lead
20. Nature's Answer Inc. Hyssop Herb Single Herb - Lead
21. Nature's Answer Inc. Echinacea Herb Single Herb- Lead
22. Nature's Answer Inc. Red Clover Tops Single Herb - Lead
23. Nature's Answer Inc. Advanced Botanical Fingerprint Technology Reishi 1000 mg - Lead
24. Nature's Answer Inc. Advanced Botanical Fingerprint Technology Slippery Elm 1050 mg- Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least May 23, 2011, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violators violated Proposition 65 because they failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violators to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

Karen A. Evans

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center's Notice of Proposition 65 Violations by Bio-Botanica, Inc.;  
D-D Chemco., Inc.**

I, Karen A. Evans, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: May 23, 2014

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Governor's List."*** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in a Food.** Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4)

### *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

### *FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...*

Contact the Office of Environmental Health Hazard Assessment's Proposition 65 Implementation Office at (916) 445-6900 or via e-mail at [P65Public.Comments@oehha.ca.gov](mailto:P65Public.Comments@oehha.ca.gov).

**NOTICE OF VIOLATIONS OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

**6 S, Inc. dba All Star Health**

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

**Nature's Answer Greens Today Original -- Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*  
May 23, 2014  
Page 2

these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least May 23, 2011, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

---

Karen A. Evans

**Attachments**

- Certificate of Merit
- Certificate of Service
- OEHHA Summary (to 6 S, Inc. dba All Star Health only)
- Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center's Notice of Proposition 65 Violations by 6 S, Inc. dba All Star Health**

I, Karen A. Evans, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: May 23, 2014

---

Karen A. Evans

**CERTIFICATE OF SERVICE**

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On May 23, 2014, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a US Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current President or CEO  
6 S, Inc. dba All Star Health  
5951 Skylab Road  
Huntington Beach, CA 92647

Current President or CEO  
6 S, Inc. dba All Star Health  
9641 Lark Circle  
Fountain Valley, CA 92708

On May 23, 2014, I electronically served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** on the following party by uploading a true and correct copy thereof on the California Attorney General's website, which can be accessed at <https://oag.ca.gov/prop65/add-60-day-notice>:

Office of the California Attorney General  
Prop 65 Enforcement Reporting  
1515 Clay Street, Suite 2000  
Oakland, CA 94612-0550

On May 23, 2014, I served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT** on each of the parties on the Service List attached hereto by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties on the Service List attached hereto, and depositing it with the U.S. Postal Service with the postage fully prepaid for delivery by Priority Mail.

Executed on May 23, 2014, in Fort Oglethorpe, Georgia.

Tiffany Capehart

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Governor's List."*** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in a Food.** Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4)

### ***HOW IS PROPOSITION 65 ENFORCED?***

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

### ***FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...***

**NOTICE OF VIOLATIONS OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the "Violator") is:

**Lucky Vitamin Corporation**

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

1. Nature's Answer Inc. Burdock Root Single Herb - Lead
2. Nature's Answer Inc. Valerian Root Single Herb - Lead
3. Nature's Answer Inc. Butcher's Broom Root Single Herb - Lead
4. Nature's Answer Inc. Detox Formula Herbal Blend - Lead
5. Nature's Answer Inc. Bladdex Herbal Blend - Lead
6. Nature's Answer Inc. Echinacea With Astragalus Herbal Blend - Lead
7. Nature's Answer Inc. Advanced Botanical Fingerprint Technology Damiana 800mg - Lead
8. Nature's Answer Inc. Greens Today Raw Superfood - Lead
9. Nature's Answer Greens Today Vegan Formula - Lead
10. Nature's Answer Greens Today Green Power Formula Cellular Energy - Lead
11. Nature's Answer Greens Today Men's Formula - Lead
12. Nature's Answer Greens Today Original - Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least May 23, 2011, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

---

Karen A. Evans

**Attachments**

- OEHHA Summary (to Lucky Vitamin Corporation and its Registered Agent for Service of Process only)
- Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center's Notice of Proposition 65 Violations by Lucky Vitamin Corporation**

I, Karen A. Evans, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: May 23, 2014

Karen A. Evans

**CERTIFICATE OF SERVICE**

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On May 23, 2014, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a US Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current President or CEO  
Lucky Vitamin Corporation  
18 West Mount Kirk Avenue  
Eagleville, PA 19403

Current President or CEO  
Lucky Vitamin Corporation  
555 E. North Lane, Suite 6050  
Conshohocken, PA 19428

Current President or CEO  
Lucky Vitamin Corporation  
8 Avenue B, Buncher Industrial Park  
Leetsdale, PA 15056

Current President or CEO  
Lucky Vitamin Corporation  
300 6<sup>th</sup> Avenue  
Pittsburgh, PA 15222

National Registered Agents, Inc.  
(Lucky Vitamin Corporation's Registered Agent  
for Service of Process)  
116 Pine Street, 3<sup>rd</sup> Floor, Suite 320  
Harrisburg, PA 17101

Current President or CEO  
Lucky Vitamin Corporation  
4 West Mount Kirk Avenue  
Norristown, PA 19403

On May 23, 2014, I electronically served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** on the following party by uploading a true and correct copy thereof on the California Attorney General's website, which can be accessed at <https://oag.ca.gov/prop65/add-60-day-notice>:

Office of the California Attorney General  
Prop 65 Enforcement Reporting  
1515 Clay Street, Suite 2000  
Oakland, CA 94612-0550

On May 23, 2014, I served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT** on each of the parties on the Service List attached hereto by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties on the Service List attached hereto, and depositing it with the U.S. Postal Service with the postage fully prepaid for delivery by Priority Mail.

Executed on May 23, 2014, in Fort Oglethorpe, Georgia.

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Governor's List."*** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in a Food.** Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4)

### *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

**NOTICE OF VIOLATIONS OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center (“ERC”), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC’s Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

**Vitacost.com, Inc.**

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

**Nature’s Answer Greens Today Original Formula – Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*

May 23, 2014

Page 2

these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least May 23, 2011, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

---

Karen A. Evans

Certificate of Merit

Certificate of Service

OEHHA Summary (to Vitacost.com, Inc. and its Registered Agent for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center's Notice of Proposition 65 Violations by Vitacost.com, Inc.**

I, Karen A. Evans, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: May 23, 2014

*Karen A. Evans*

Karen A. Evans

**CERTIFICATE OF SERVICE**

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On May 23, 2014, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a US Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current CEO or President  
Vitacost.com, Inc.  
5400 Broken Sound Parkway NW, Suite 500  
Boca Raton, FL 33487

Corporation Service Company  
(Vitacost.com, Inc.'s Registered  
Agent for Service of Process)  
1201 Hays Street  
Tallahassee, FL 32301

On May 23, 2014, I electronically served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** on the following party by uploading a true and correct copy thereof on the California Attorney General's website, which can be accessed at <https://oag.ca.gov/prop65/add-60-day-notice> :

Office of the California Attorney General  
Prop 65 Enforcement Reporting  
1515 Clay Street, Suite 2000  
Oakland, CA 94612-0550

On May 23, 2014, I served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT** on each of the parties on the Service List attached hereto by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties on the Service List attached hereto, and depositing it with the U.S. Postal Service with the postage fully prepaid for delivery by Priority Mail.

Executed on May 23, 2014, in Fort Oglethorpe, Georgia.

Tiffany Capehart

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Governor's List."*** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in a Food.** Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4)

### *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

**NOTICE OF VIOLATIONS OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violators and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violators identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violators and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violators identified below.

**Alleged Violators.** The names of the companies covered by this notice that violated Proposition 65 (hereinafter the "Violators") are:

**Vitamin Shoppe Industries Inc.  
Vitamin Shoppe, Inc.**

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

**Nature's Answer Inc. Bladdex Herbal Blend - Lead  
Nature's Answer Inc. Liver Support Herbal Blend - Lead  
Nature's Answer Inc. Burdock Root Single Herb - Lead  
Nature's Answer Inc. Butcher's Broom Root Single Herb - Lead  
Nature's Answer Inc. Valerian Root Single Herb - Lead  
Nature's Answer Greens Today Joint Formula French Vanilla Flavor - Lead  
Nature's Answer Inc. Greens Today Raw Superfood - Lead**

Notice of Violations of California Health & Safety Code §25249.5 *et seq.*

May 23, 2014

Page 2

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least May 23, 2011, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violators violated Proposition 65 because they failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violators to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

---

Karen A. Evans

Certificate of Merit

Certificate of Service

OEHHA Summary (to Vitamin Shoppe Industries Inc., Vitamin Shoppe, Inc. and their Registered Agents for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center's Notice of Proposition 65 Violations by Vitamin Shoppe Industries Inc. and Vitamin Shoppe, Inc.**

I, Karen A. Evans, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.
2. I am an attorney for the noticing party.
3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.
4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.
5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: May 23, 2014

Karen A. Evans

**CERTIFICATE OF SERVICE**

I, the undersigned, declare under penalty of perjury under the laws of the State of California that the following is true and correct:

I am a citizen of the United States, over the age of 18 years of age, and am not a party to the within entitled action. My business address is 306 Joy Street, Fort Oglethorpe, Georgia 30742. I am a resident or employed in the county where the mailing occurred. The envelope or package was placed in the mail at Fort Oglethorpe, Georgia.

On May 23, 2014, I served the following documents: **NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; "THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY"** on the following parties by placing a true and correct copy thereof in a sealed envelope, addressed to the party listed below and depositing it in a US Postal Service Office with the postage fully prepaid for delivery by Certified Mail:

Current CEO or President  
Vitamin Shoppe, Inc.  
2101 91st Street  
North Bergen, NJ 07047

Current CEO or President  
Vitamin Shoppe Industries Inc.  
2101 91st Street  
North Bergen, NJ 07047

Corporation Service Company  
(Vitamin Shoppe Industries Inc.'s  
Registered Agent for Service  
of Process)  
830 Bear Tavern Road  
West Trenton, NJ 08628

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Governor's List."*** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in a Food.** Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4)

### *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

### *FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...*

**NOTICE OF VIOLATIONS OF  
CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 ET SEQ.  
(PROPOSITION 65)**

Dear Alleged Violators and the Appropriate Public Enforcement Agencies:

I represent Environmental Research Center, Inc. ("ERC"), 3111 Camino Del Rio North, Suite 400, San Diego, CA 92108; Tel. (619) 500-3090. ERC's Executive Director is Chris Heptinstall. ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California's Safe Drinking Water and Toxic Enforcement Act of 1986 ("Proposition 65"), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violators identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violators and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violators identified below.

**Alleged Violators.** The names of the companies covered by this notice that violated Proposition 65 (hereinafter the "Violators") are:

**Bio-Botanica, Inc.  
D-D Chemco., Inc.  
Nature's Answer, Inc.**

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

- 1. Genceutic Naturals Plant Head Protein Chocolate - Lead**
- 2. Genceutic Naturals Plant Head Protein Vanilla - Lead**
- 3. Nature's Answer Inc. Liver Support Herbal Blend - Lead**
- 4. Nature's Answer Greens Today Joint Formula French Vanilla Flavor - Lead**
- 5. Nature's Answer Inc. Burdock Root Single Herb - Lead**
- 6. Nature's Answer Inc. Valerian Root Single Herb - Lead**
- 7. Nature's Answer Inc. Detox Formula Herbal Blend - Lead**
- 8. Nature's Answer Inc. Bladdex Herbal Blend - Lead**
- 9. Nature's Answer Inc. Echinacea With Astragalus Herbal Blend - Lead**
- 10. Nature's Answer Inc. Advanced Botanical Fingerprint Technology Damiana 800mg - Lead**

11. Nature's Answer Inc. Greens Today Raw Superfood – Lead
12. Nature's Answer Greens Today Vegan Formula - Lead
13. Nature's Answer Greens Today Green Power Formula Cellular Energy – Lead
14. Nature's Answer Greens Today Men's Formula - Lead
15. Nature's Answer Greens Today Original - Lead

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the purchase, acquisition, handling and recommended use of these products. Consequently, the primary route of exposure to these chemicals has been and continues to be through ingestion, but may have also occurred and may continue to occur through inhalation and/or dermal contact.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least August 29, 2011, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violators violated Proposition 65 because they failed to provide persons handling and/or using these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violators to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; and (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time consuming litigation.

ERC has retained me as legal counsel in connection with this matter. **Please direct all communications regarding this Notice of Violations to my attention at the law office address and telephone number indicated on the letterhead.**

Sincerely,

---

Karen A. Evans

- Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Bio-Botanica, Inc.; D-D Chemco., Inc.; Nature's Answer, Inc.**

I, Karen A. Evans, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the parties identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am an attorney for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violators will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

*Karen A. Evans*

(D-D Chemco., Inc.'s Registered  
Agent for Service of Process)  
21707 Nordhoff Street  
Chatsworth, CA 91311

Current CEO or President  
Bio-Botanica, Inc.  
75 Commerce Drive  
Hauppauge, NY 11788

On August 29, 2014, I electronically served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT; ADDITIONAL SUPPORTING INFORMATION FOR CERTIFICATE OF MERIT AS REQUIRED BY CALIFORNIA HEALTH & SAFETY CODE §25249.7(d)(1)** on the following party by uploading a true and correct copy thereof on the California Attorney General's website, which can be accessed at <https://oag.ca.gov/prop65/add-60-day-notice>:

Office of the California Attorney General  
Prop 65 Enforcement Reporting  
1515 Clay Street, Suite 2000  
Oakland, CA 94612-0550

On August 29, 2014, I served the following documents: **NOTICE OF VIOLATIONS, CALIFORNIA HEALTH & SAFETY CODE §25249.5 ET SEQ.; CERTIFICATE OF MERIT** on each of the parties on the Service List attached hereto by placing a true and correct copy thereof in a sealed envelope, addressed to each of the parties on the Service List attached hereto, and depositing it with the U.S. Postal Service with the postage fully prepaid for delivery by Priority Mail.

Executed on August 29, 2014, in Fort Oglethorpe, Georgia.

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA's implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

Proposition 65 appears in California law as Health and Safety Code Sections 25249.5 through 25249.13. The statute is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Governor's List."*** Proposition 65 requires the Governor to publish a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. This means that chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

damage to female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at:

[http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under this law. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before "knowingly and intentionally" exposing that person to a listed chemical unless an exemption applies; for example, when exposures are sufficiently low (see below). The warning given must be "clear and reasonable." This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm and (2) be given in such a way that it will effectively reach the person before he or she is exposed. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### ***DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?***

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed as known to the State to cause cancer ("carcinogens"), a warning is not required if the business can demonstrate that the exposure occurs at a level that poses "no significant risk." This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific "No Significant Risk Levels" (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the "no observable effect level" divided by a 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in a Food.** Certain exposures to chemicals that occur in foods naturally (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a "significant amount" of the listed chemical entering into any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a "significant amount" of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A "significant amount" means any detectable amount, except an amount that would meet the "no significant risk" level for chemicals that cause cancer or that is 1,000 times below the "no observable effect" level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4)

### *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of the regulations and in Title 11, sections 3100-3103. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

### *FOR FURTHER INFORMATION ABOUT THE LAW OR REGULATIONS...*
