**CASE NO. RG19025217**

**STIPULATED CONSENT  
JUDGMENT**

Health & Safety Code § 25249.5 *et seq.*

Action Filed: July 1, 2019

Trial Date: None set

1       **1. INTRODUCTION**

2           **1.1**     On July 1, 2019, Plaintiff Environmental Research Center, Inc. (“ERC”), a non-  
3 profit corporation, as a private enforcer and in the public interest, initiated this action by filing  
4 a Complaint for Injunctive and Declaratory Relief and Civil Penalties pursuant to the  
5 provisions of California Health and Safety Code section 25249.5 *et seq.* (“Proposition 65”),  
6 against Well Beyond, LLC (“Well Beyond”) and Does 1-100. Subsequently, on October 13,  
7 2020 , a First Amended Complaint was filed (hereinafter referred to as the operative  
8 “Complaint”). In this action, ERC alleges that a number of products manufactured, distributed,  
9 or sold by Well Beyond contain lead and/or cadmium, chemicals listed under Proposition 65 as  
10 carcinogens and reproductive toxins, and expose consumers to these chemicals at a level  
11 requiring a Proposition 65 warning. These products (referred to hereinafter individually as a  
12 “Covered Product” or collectively as “Covered Products”) are: (1) Beyond Shake Balanced  
13 Nutrition Meal Replacement Salted Caramel Vanilla (lead), (2) Beyond Shake High-  
14 Antioxidant Meal Replacement Dark Chocolate (lead), (3) Beyond Healthy Chocolate Xobiotic  
15 Squares (lead, cadmium), (4) Beyond Xe Energy Multiplier Proprietary Blend of Superfruits +  
16 Cacao (lead), (5) Beyond Healthy Chocolate Nuggets Dark Chocolate With Acai and  
17 Blueberry (lead), and (6) Beyond Healthy Chocolate X Power Squares Extreme Dark  
18 Chocolate With Acai & Blueberry (lead).

19           **1.2**     ERC and Well Beyond are hereinafter referred to individually as a “Party” or  
20 collectively as the “Parties.”

21           **1.3**     ERC is a 501 (c)(3) California non-profit corporation dedicated to, among other  
22 causes, helping safeguard the public from health hazards by reducing the use and misuse of  
23 hazardous and toxic chemicals, facilitating a safe environment for consumers and employees,  
24 and encouraging corporate responsibility.

25           **1.4**     For purposes of this Consent Judgment, the Parties agree that there is a dispute  
26 over whether Well Beyond is or has been a business entity that has employed ten or more  
27 persons at all times relevant to this action such that Well Beyond qualifies as a “person in the  
28 course of doing business” within the meaning of Proposition 65 (“Person in the Course of Doing

1 Business”). ERC contends that evidence shows that Well Beyond qualified, at times relevant to  
2 this action, as a Person in the Course of Doing Business; while Well Beyond contends that it  
3 does not qualify, and has not qualified, as a Person in the Course of Doing Business at any time  
4 relevant to this action. Well Beyond distributes and/or sells the Covered Products.

5 **1.5** The Complaint is based on allegations contained in ERC’s Notices of Violation  
6 dated April 11, 2019 and February 20, 2020 that were served on the California Attorney  
7 General, other public enforcers, and Well Beyond (“Notices”). True and correct copies of the  
8 60-Day Notices dated April 11, 2019 and February 20, 2020 are attached hereto as **Exhibits A**  
9 **and B** and each is incorporated herein by reference. More than 60 days have passed since the  
10 Notices were served on the Attorney General, public enforcers, and Well Beyond and no  
11 designated governmental entity has filed a Complaint against Well Beyond with regard to the  
12 Covered Products or the alleged violations.

13 **1.6** ERC’s Notices and Complaint allege that use of the Covered Products exposes  
14 persons in California to lead and/or cadmium without first providing clear and reasonable  
15 warnings in violation of California Health and Safety Code section 25249.6. Well Beyond  
16 denies all material allegations contained in the Notices and Complaint.

17 **1.7** The Parties have entered into this Consent Judgment in order to settle,  
18 compromise, and resolve disputed claims and thus avoid prolonged and costly litigation.  
19 Nothing in this Consent Judgment nor compliance with this Consent Judgment shall constitute  
20 or be construed as an admission by any of the Parties or by any of their respective officers,  
21 directors, shareholders, employees, agents, parent companies, subsidiaries, divisions,  
22 franchisees, licensees, customers, suppliers, distributors, wholesalers, or retailers of any fact,  
23 issue of law, or violation of law.

24 **1.8** Except as expressly set forth herein, nothing in this Consent Judgment shall  
25 prejudice, waive, or impair any right, remedy, argument, or defense the Parties may have in  
26 any current or future legal proceeding unrelated to these proceedings.

27 **1.9** The Effective Date of this Consent Judgment is the date on which it is entered  
28 as a Judgment by this Court.

1       **2.    JURISDICTION AND VENUE**

2           For purposes of this Consent Judgment and any further court action that may become  
3 necessary to enforce this Consent Judgment, the Parties stipulate that this Court has subject matter  
4 jurisdiction over the allegations of violations contained in the Complaint (except insofar as Well  
5 Beyond disputes that it is a Person in the Course of Doing Business under the Act), personal  
6 jurisdiction over Well Beyond as to the acts alleged in the Complaint, that venue is proper in  
7 Alameda County, and that this Court has jurisdiction to enter this Consent Judgment as a full and  
8 final resolution of all claims up through and including the Effective Date which were or could  
9 have been asserted in this action based on the facts alleged in the Notices and Complaint.

10       **3.    INJUNCTIVE RELIEF, REFORMULATION, TESTING AND WARNINGS**

11           **3.1**     Beginning after the Effective Date, if at any time Well Beyond qualifies as a  
12 Person in the Course of Doing Business, Well Beyond shall be permanently enjoined from  
13 manufacturing for sale in the State of California, “Distributing into the State of California,” or  
14 directly selling in the State of California, any Covered Product which exposes a person to a  
15 “Daily Lead Exposure Level” of more than 0.5 micrograms of lead per day and/or “Daily  
16 Cadmium Exposure Level” of more than 4.1 micrograms of cadmium per day unless it meets  
17 the warning requirements under Section 3.2.

18           **3.1.1**   As used in this Consent Judgment, the term “Distributing into the State  
19 of California” shall mean to directly ship a Covered Product into California for sale in  
20 California or to sell a Covered Product to a distributor that Well Beyond knows or has reason  
21 to know will sell the Covered Product in California.

22           **3.1.2**   For purposes of this Consent Judgment, the “Daily Lead Exposure  
23 Level” shall be measured in micrograms, and shall be calculated using the following formula:  
24 micrograms of lead per gram of product, multiplied by grams of product per serving of the  
25 product (using the largest serving size appearing on the product label), multiplied by servings  
26 of the product per day (using the largest number of recommended daily servings appearing on  
27 the label), which equals micrograms of lead exposure per day. If the label contains no  
28 recommended daily servings, then the number of recommended daily servings shall be one.

1           **3.1.3** For purposes of this Consent Judgment, the “Daily Cadmium Exposure  
2 Level” shall be measured in micrograms, and shall be calculated using the following formula:  
3 micrograms of cadmium per gram of product, multiplied by grams of product per serving of the  
4 product (using the largest serving size appearing on the product label), multiplied by servings  
5 of the product per day (using the largest number of recommended daily servings appearing on  
6 the label), which equals micrograms of cadmium exposure per day. If the label contains no  
7 recommended daily servings, then the number of recommended daily servings shall be one.

8           **3.1.4** In the event that Well Beyond does not seek to comply with the provisions  
9 in Section 3.2 and 3.4 of this Consent Judgment because it contends that it is not a Person in the  
10 Course of Doing Business, Well Beyond shall provide to ERC proof, in the form of IRS form  
11 941s (“Employment Proof”) to confirm whether or not Well Beyond qualifies as a Person in the  
12 Course of Doing Business. Well Beyond shall provide Employment Proof to ERC within thirty  
13 (30) days after the Effective Date (“Initial Disclosure”) and, thereafter, within thirty (30) days  
14 before or after each successive anniversary of the Effective Date (“Successive Disclosure”) up to  
15 and including the fifth anniversary of the Effective Date. The Employment Proof provided in the  
16 Initial Disclosure shall cover the period from one year prior to the Effective Date up through and  
17 including the date of the Initial Disclosure. Thereafter, each Successive Disclosure shall include  
18 Employment Proof for the period dating back to the immediately preceding disclosure of  
19 Employment Proof. Well Beyond shall comply with the injunctive terms of this Consent  
20 Judgment during any period of time that it qualifies as a Person in the Course of Doing Business,  
21 whether or not that occurs before the annual Employment Proof reporting requirement contained  
22 in this subsection. However, so long as Well Beyond is in compliance with the provisions of  
23 Sections 3.2 and 3.4, Well Beyond has no obligation to provide the information described in  
24 Section 3.1.4 or otherwise comply with Section 3.1.4.

25           **3.2 Clear and Reasonable Warnings**

26           If Well Beyond is required to provide a warning pursuant to Section 3.1, one of the  
27 following warnings must be utilized (“Warning”):

28 ///

1           **OPTION 1:**

2           **WARNING:** Consuming this product can expose you to chemicals including [lead]  
3           [and] [cadmium] which is [are] known to the State of California to cause [cancer and]  
4           birth defects or other reproductive harm. For more information go to  
5           [www.P65Warnings.ca.gov/food](http://www.P65Warnings.ca.gov/food).

5           Or

6           **OPTION 2:**

7            **WARNING:** [Cancer and] Reproductive Harm - [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov).

8  
9           Well Beyond shall use the phrase “cancer and” in the Warning if Well Beyond has reason  
10          to believe that the the “Daily Lead Exposure Level” is greater than 15 micrograms of lead as  
11          determined pursuant to the quality control methodology set forth in Section 3.4 or if another  
12          Proposition 65 chemical is present which may require a cancer warning. Additionally, the word  
13          “**WARNING**” shall be in all capital letters and bold print.

14          For Option 1, as identified in the brackets, the Warning shall appropriately reflect  
15          whether there is lead, cadmium, or both chemicals present in each of the Covered Products.  
16          For Option 2, a symbol consisting of a black exclamation point in a yellow equilateral triangle  
17          with a bold black outline shall be placed to the left of the text of the Warning, in a size no smaller  
18          than the height of the word “**WARNING.**”

19          The Warning shall be securely affixed to or printed upon the container or label of each  
20          Covered Product requiring a warning. If the Warning is provided on the label, it must be set  
21          off from other surrounding information and enclosed in a box. In addition, for any Covered  
22          Product requiring a warning that is sold over the internet, when a California delivery address is  
23          indicated for any purchase of any Covered Product requiring a warning, the Warning shall be  
24          provided either on the Covered Product requiring a warning’s primary display page or by  
25          otherwise prominently displaying the Warning to the purchaser prior to completing the  
26          purchase. If the Warning is provided on the checkout page, an asterisk or other identifying  
27          method must be utilized to identify which products on the checkout page are subject to the  
28          Warning. The Warning may be made through a clearly marked hyperlink using the word

1 “**WARNING**” in all capital and bold letters so long as the hyperlink goes directly to a page  
2 prominently displaying the Warning without content that detracts from the Warning. The  
3 Warning may contain information that is supplemental to the content required by this Section  
4 only to the extent that such information identifies the source of the exposure or provides  
5 information on how to avoid or reduce exposure to the identified chemical or chemicals. For  
6 purposes of this Section, a Warning is not prominently displayed if the purchaser must search  
7 for it in the general content of the website.

8 Well Beyond must display the above Warning with such conspicuousness, as compared  
9 with other words, statements or designs on the label or container, or on its website if applicable, to  
10 render the Warning likely to be read and understood by an ordinary individual under customary  
11 conditions of purchase or use of the product. The Parties intend that this Section 3.2 shall be  
12 interpreted in such a way as to comply with 27 CCR §§ 25602 and 25607.1, in effect on the date  
13 the Parties execute this document and as thereafter amended from time to time, and that any  
14 warning that would comply with these California regulations will be deemed to comply with this  
15 Section 3.2 so long as the amendments to these California regulations are applicable to the  
16 Covered Products.

### 17 **3.3 Conforming Covered Products**

18 A Conforming Covered Product is a Covered Product for which the “Daily Lead Exposure  
19 Level” is no greater than 0.5 micrograms of lead per day and/or “Daily Cadmium Exposure  
20 Level” is no more than 4.1 micrograms of cadmium per day as determined by the quality control  
21 methodology described in Section 3.4.

### 22 **3.4 Testing and Quality Control Methodology**

23 **3.4.1** Beginning within one year of the Effective Date, Well Beyond shall  
24 arrange for lead and cadmium testing of the Covered Products at least once a year for five  
25 consecutive years by arranging for testing of one randomly selected sample of each of the  
26 Covered Products, in the form intended for sale to the end-user, which Well Beyond intends to  
27 sell or is manufacturing for sale in California, directly selling to a consumer in California or  
28 “Distributing into the State of California.” If tests conducted pursuant to this Section

1 demonstrate that no Warning is required for a Covered Product during each of five consecutive  
2 years, then the testing requirements of this Section will no longer be required as to that  
3 Covered Product.

4 **3.4.2** For purposes of measuring the “Daily Lead Exposure Level” and/or  
5 “Daily Cadmium Exposure Level,” the lead and/or cadmium detection result of the one (1)  
6 randomly selected sample of each of the Covered Products will be controlling.

7 **3.4.3** All testing pursuant to this Consent Judgment shall be performed using a  
8 laboratory method that complies with the performance and quality control factors appropriate  
9 for the method used, including limit of detection, qualification, accuracy, and precision that  
10 meets the following criteria: Inductively Coupled Plasma-Mass Spectrometry (“ICP-MS”)  
11 achieving a limit of quantification of less than or equal to 0.010 mg/kg.

12 **3.4.4** All testing pursuant to this Consent Judgment shall be performed by an  
13 independent third party laboratory certified by the California Environmental Laboratory  
14 Accreditation Program or an independent third-party laboratory that is registered with the  
15 United States Food & Drug Administration.

16 **3.4.5** Nothing in this Consent Judgment shall limit Well Beyond’s ability to  
17 conduct, or require that others conduct, additional testing of the Covered Products, including  
18 the raw materials used in their manufacture. However, any such testing will not be considered  
19 in any action related to the Covered Products.

20 **3.4.6** Within thirty (30) days of ERC’s written request, Well Beyond shall  
21 deliver lab reports obtained pursuant to Section 3.4 to ERC. Well Beyond shall retain all test  
22 results and documentation for a period of five years from the date of each test.

23 **3.4.7** The testing requirements under this Section 3.4 do not apply to any  
24 Covered Product for which Well Beyond has provided the Warning specified in Section 3.2  
25 continuously and uninterrupted after the Effective Date or that Well Beyond is no longer  
26 selling in California; however, in the event Well Beyond ceases to provide the Warning  
27 specified in Section 3.2 or resumes selling the Covered Product in California, Well Beyond  
28 shall be required to comply with the testing requirements of this section beginning immediately

1 after (a) the date the Warning ceases to be provided or (b) the date that Well Beyond resumes  
2 selling the Covered Product in California (whichever is applicable) or one year after the  
3 Effective Date, whichever date is later.

4 **4. SETTLEMENT PAYMENT**

5 **4.1** In full satisfaction of all potential civil penalties, additional settlement payments,  
6 attorney’s fees, and costs, Well Beyond shall make a total payment of \$80,000.00 (“Total  
7 Settlement Amount”) to ERC in six periodic payments (the “Periodic Payments”) according to  
8 the following payment schedule (“Due Dates”):

- 9 • Payment 1 -- \$13,333.35 within 5 days of the Effective Date
- 10 • Payment 2 -- \$13,333.33 within 35 days of the Effective Date
- 11 • Payment 3 -- \$13,333.33 within 65 days of the Effective Date
- 12 • Payment 4 -- \$13,333.33 within 95 days of the Effective Date
- 13 • Payment 5 -- \$13,333.33 within 125 days of the Effective Date
- 14 • Payment 6 -- \$13,333.33 within 155 days of the Effective Date

15  
16 Well Beyond shall make these Periodic Payment by wire transfer to ERC’s account, for  
17 which ERC will give Well Beyond the necessary account information. The Total Settlement  
18 Amount shall be apportioned as follows:

19 **4.2** \$36,825.00 shall be considered a civil penalty pursuant to California Health and  
20 Safety Code section 25249.7(b)(1). ERC shall remit 75% (\$27,618.75) of the civil penalty to  
21 the Office of Environmental Health Hazard Assessment (“OEHHA”) for deposit in the Safe  
22 Drinking Water and Toxic Enforcement Fund in accordance with California Health and Safety  
23 Code section 25249.12(c). ERC will retain the remaining 25% (\$9,206.25) of the civil penalty.

24 **4.3** \$7,706.75 shall be distributed to ERC as reimbursement to ERC for reasonable  
25 costs incurred in bringing this action.

26 **4.4** \$27,568.85 shall be distributed to ERC as an Additional Settlement Payment  
27 (“ASP”), pursuant to California Code of Regulations, title 11, sections 3203, subdivision (d)  
28 and 3204. ERC will utilize the ASP for activities that address the same public harm as

1 allegedly caused by Defendant in this matter. These activities are detailed below and support  
2 ERC's overarching goal of reducing and/or eliminating hazardous and toxic chemicals in  
3 dietary supplement products in California. ERC's activities have had, and will continue to  
4 have, a direct and primary effect within the State of California because California consumers  
5 will be benefitted by the reduction and/or elimination of exposure to lead and/or cadmium in  
6 dietary supplements and/or by providing clear and reasonable warnings to California  
7 consumers prior to ingestion of the products.

8         Based on a review of past years' actual budgets, ERC is providing the following list of  
9 activities ERC engages in to protect California consumers through Proposition 65 citizen  
10 enforcement, along with a breakdown of how ASP funds will be utilized to facilitate those  
11 activities: (1) ENFORCEMENT (65-80%): obtaining, shipping, analyzing, and testing dietary  
12 supplement products that may contain lead and/or cadmium and are sold to California  
13 consumers. This work includes continued monitoring and enforcement of past consent  
14 judgments and settlements to ensure companies are in compliance with their obligations  
15 thereunder, with a specific focus on those judgments and settlements concerning lead and/or  
16 cadmium. This work also includes investigation of new companies that ERC does not obtain  
17 any recovery through settlement or judgment; (2) VOLUNTARY COMPLIANCE PROGRAM  
18 (10-20%): maintaining ERC's Voluntary Compliance Program by acquiring products from  
19 companies, developing and maintaining a case file, testing products from these companies,  
20 providing the test results and supporting documentation to the companies, and offering  
21 guidance in warning or implementing a self-testing program for lead and/or cadmium in dietary  
22 supplement products; and (3) "GOT LEAD" PROGRAM (up to 5%): maintaining ERC's "Got  
23 Lead?" Program which reduces the numbers of contaminated products that reach California  
24 consumers by providing access to free testing for lead in dietary supplement products (Products  
25 submitted to the program are screened for ingredients which are suspected to be contaminated,  
26 and then may be purchased by ERC, catalogued, sent to a qualified laboratory for testing, and  
27 the results shared with the consumer that submitted the product).

28         ERC shall be fully accountable in that it will maintain adequate records to document

1 and will be able to demonstrate how the ASP funds will be spent and can assure that the funds  
2 are being spent only for the proper, designated purposes described in this Consent Judgment.  
3 ERC shall provide the Attorney General, within thirty days of any request, copies of  
4 documentation demonstrating how such funds have been spent.

5 **4.5** \$7,899.40 shall be distributed to ERC for its in-house legal fees. Except as  
6 explicitly provided herein, each Party shall bear its own fees and costs.

7 **4.6** In the event that Well Beyond fails to remit, in full, any of the Periodic  
8 Payments owed pursuant to Section 4.1 of this Consent Judgment on or before the applicable  
9 Due Date, Well Beyond shall be deemed to be in material breach of its obligations under this  
10 Consent Judgment. ERC shall provide written notice of the delinquency to Well Beyond via  
11 electronic mail. If Well Beyond fails to deliver the delinquent payment within five (5) days  
12 from the written notice, the Total Settlement Amount, less any amounts previously paid  
13 pursuant to Section 4.1, shall be immediately due and owing and shall accrue interest at the  
14 statutory judgment interest rate provided in the California Code of Civil Procedure section  
15 685.010. Additionally, Well Beyond agrees to pay ERC's reasonable attorney's fees and costs  
16 for any efforts to collect the payment due under this Consent Judgment.

17 **5. MODIFICATION OF CONSENT JUDGMENT**

18 **5.1** This Consent Judgment may be modified only as to injunctive terms (i) by  
19 written stipulation of the Parties and upon entry by the Court of a modified consent judgment  
20 or (ii) by motion of either Party pursuant to Section 5.3 or 5.4 and upon entry by the Court of a  
21 modified consent judgment.

22 **5.2** If Well Beyond seeks to modify this Consent Judgment under Section 5.1, then  
23 Well Beyond must provide written notice to ERC of its intent ("Notice of Intent"). If ERC  
24 seeks to meet and confer regarding the proposed modification in the Notice of Intent, then ERC  
25 must provide written notice to Well Beyond within thirty (30) days of receiving the Notice of  
26 Intent. If ERC notifies Well Beyond in a timely manner of ERC's intent to meet and confer,  
27 then the Parties shall meet and confer in good faith as required in this Section. The Parties  
28 shall meet in person or via telephone within thirty (30) days of ERC's notification of its intent

1 to meet and confer. Within thirty (30) days of such meeting, if ERC disputes the proposed  
2 modification, ERC shall provide to Well Beyond a written basis for its position. The Parties  
3 shall continue to meet and confer for an additional thirty (30) days in an effort to resolve any  
4 remaining disputes. Should it become necessary, the Parties may agree in writing to different  
5 deadlines for the meet-and-confer period.

6 **5.3** In the event that Well Beyond initiates or otherwise requests a modification  
7 under Section 5.1, and the meet and confer process leads to a joint motion or application for a  
8 modification of the Consent Judgment, Well Beyond shall reimburse ERC its costs and  
9 reasonable attorney's fees for the time spent in the meet-and-confer process and filing and  
10 arguing the motion or application.

11 **5.4** Where the meet-and-confer process does not lead to a joint motion or  
12 application in support of a modification of the Consent Judgment, then either Party may seek  
13 judicial relief on its own. In any such contested court proceeding, ERC may seek costs and any  
14 attorney's fees incurred in opposing the motion pursuant to California Code of Civil Procedure  
15 section 1021.5.

16 **6. RETENTION OF JURISDICTION, ENFORCEMENT OF CONSENT**  
17 **JUDGMENT**

18 **6.1** This Court shall retain jurisdiction of this matter to enforce, modify, or  
19 terminate this Consent Judgment, unless the Court finds that Well Beyond is not a Person in  
20 the Course of Doing Business under the Act.

21 **6.2** If ERC alleges that any Covered Product fails to qualify as a Conforming Covered  
22 Product (and for which ERC alleges that no Warning has been provided when required pursuant  
23 to this Consent Judgment) or if ERC contends that Well Beyond is selling any product in the  
24 state of California not in compliance with Proposition 65, then ERC shall inform Well Beyond in  
25 a reasonably prompt manner of its test results, including information sufficient to permit Well  
26 Beyond to identify the Covered Products at issue. Well Beyond shall, within thirty (30) days  
27 following such notice, provide ERC with testing information, from an independent third-party  
28 laboratory meeting the requirements of Sections 3.4.3 and 3.4.4, demonstrating Well Beyond's

1 compliance with the Consent Judgment, except if Well Beyond establishes that it is not a Person  
2 in the Course of Doing Business under the Act.

3           **6.3**     In the event that ERC contends that Well Beyond is in violation of this Consent  
4 Judgment, the Parties shall first attempt to resolve the matter prior to ERC taking any further  
5 legal action. ERC shall provide prompt notice, pursuant to Section 11 of this Consent Judgment,  
6 describing any alleged violations in detail, and Well Beyond shall have 30 days to take remedial  
7 action to cure any alleged violations prior ERC taking any further legal action. So long as Well  
8 Beyond has begun to take action to remedy the alleged violation, and advised ERC in writing of  
9 such remedial action, within 30 days after ERC's notice, ERC will not bring any enforcement  
10 action.

11     **7.   APPLICATION OF CONSENT JUDGMENT**

12           This Consent Judgment may apply to, be binding upon, and benefit the Parties and their  
13 respective officers, directors, shareholders, employees, agents, parent companies, subsidiaries,  
14 divisions, franchisees, licensees, customers (excluding private labelers), distributors, wholesalers,  
15 retailers, predecessors, successors, and assigns. This Consent Judgment shall have no  
16 application to any Covered Product which is distributed or sold exclusively outside the State of  
17 California and which is not used by California consumers.

18     **8.   BINDING EFFECT, CLAIMS COVERED AND RELEASED**

19           **8.1**           This Consent Judgment is a full, final, and binding resolution between ERC,  
20 on behalf of itself and in the public interest, and Well Beyond and its respective officers,  
21 directors, shareholders, employees, agents, parent companies, subsidiaries, divisions, suppliers,  
22 franchisees, licensees, customers (not including private label customers of Well Beyond),  
23 distributors, wholesalers, retailers, and all other upstream and downstream entities in the  
24 distribution chain of any Covered Product, and the predecessors, successors, and assigns of any  
25 of them (collectively, "Released Parties"). ERC, on behalf of itself and in the public interest,  
26 hereby fully releases and discharges the Released Parties from any and all claims, actions,  
27 causes of action, suits, demands, liabilities, damages, penalties, fees, costs, and expenses  
28 asserted, or that could have been asserted from the handling, use, or consumption of the

1 Covered Products, as to any alleged violation of Proposition 65 or its implementing regulations  
2 arising from the failure to provide Proposition 65 warnings on the Covered Products regarding  
3 lead and/or cadmium up to and including the Effective Date.

4 **8.2** ERC on its own behalf only, and Well Beyond on its own behalf only,  
5 further waive and release any and all claims they may have against each other for all actions or  
6 statements made or undertaken in the course of seeking or opposing enforcement of  
7 Proposition 65 in connection with the Notices and Complaint up through and including the  
8 Effective Date, provided, however, that nothing in Section 8 shall affect or limit any Party's  
9 right to seek to enforce the terms of this Consent Judgment.

10 **8.3** It is possible that other claims not known to the Parties, arising out of the facts  
11 alleged in the Notices and Complaint, and relating to the Covered Products, will develop or be  
12 discovered. ERC on behalf of itself only, and Well Beyond on behalf of itself only,  
13 acknowledge that this Consent Judgment is expressly intended to cover and include all such  
14 claims up through and including the Effective Date, including all rights of action therefore.  
15 ERC and Well Beyond acknowledge that the claims released in Sections 8.1 and 8.2 above  
16 may include unknown claims, and nevertheless waive California Civil Code section 1542 as to  
17 any such unknown claims. California Civil Code section 1542 reads as follows:

18 A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS THAT THE  
19 CREDITOR OR RELEASING PARTY DOES NOT KNOW OR SUSPECT TO  
20 EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE  
21 AND THAT IF KNOWN BY HIM OR HER, WOULD HAVE MATERIALLY  
AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR OR RELEASED  
PARTY.

22 ERC on behalf of itself only, and Well Beyond on behalf of itself only, acknowledge and  
23 understand the significance and consequences of this specific waiver of California Civil Code  
24 section 1542.

25 **8.4** Compliance with the terms of this Consent Judgment shall be deemed to  
26 constitute compliance with Proposition 65 by any releasee regarding alleged exposures to lead  
27 and/or cadmium in the Covered Products as set forth in the Notices and Complaint.

28 **8.5** Nothing in this Consent Judgment is intended to apply to any occupational or

1 environmental exposures arising under Proposition 65, nor shall it apply to any of Well  
2 Beyond's products other than the Covered Products.

3 **9. SEVERABILITY OF UNENFORCEABLE PROVISIONS**

4 In the event that any of the provisions of this Consent Judgment are held by a court to be  
5 unenforceable, the validity of the remaining enforceable provisions shall not be adversely  
6 affected.

7 **10. GOVERNING LAW**

8 The terms and conditions of this Consent Judgment shall be governed by and construed in  
9 accordance with the laws of the State of California.

10 **11. PROVISION OF NOTICE**

11 All notices required to be given to either Party to this Consent Judgment by the other shall  
12 be in writing and sent to the following agents listed below via first-class mail or via electronic  
13 mail where required. Courtesy copies via email may also be sent.

## 9 **12. COURT APPROVAL**

10 **12.1** Upon execution of this Consent Judgment by the Parties, ERC shall notice a  
11 Motion for Court Approval. The Parties shall use their best efforts to support entry of this  
12 Consent Judgment.

13 **12.2** If the California Attorney General objects to any term in this Consent Judgment,  
14 the Parties shall use their best efforts to resolve the concern in a timely manner, and if possible  
15 prior to the hearing on the motion.

16 **12.3** If this Stipulated Consent Judgment is not approved by the Court, it shall be  
17 void and have no force or effect.

## 18 **13. EXECUTION AND COUNTERPARTS**

19 This Consent Judgment may be executed in counterparts, which taken together shall be  
20 deemed to constitute one document. A facsimile or .pdf signature shall be construed to be as valid  
21 as the original signature.

## 22 **14. DRAFTING**

23 The terms of this Consent Judgment have been reviewed by the respective counsel for  
24 each Party prior to its signing, and each Party has had an opportunity to fully discuss the terms  
25 and conditions with legal counsel. The Parties agree that, in any subsequent interpretation and  
26 construction of this Consent Judgment, no inference, assumption, or presumption shall be drawn,  
27 and no provision of this Consent Judgment shall be construed against any Party, based on the fact  
28 that one of the Parties and/or one of the Parties' legal counsel prepared and/or drafted all or any  
portion of the Consent Judgment. It is conclusively presumed that all of the Parties participated  
equally in the preparation and drafting of this Consent Judgment.

1     **15. GOOD FAITH ATTEMPT TO RESOLVE DISPUTES**

2             If a dispute arises with respect to either Party’s compliance with the terms of this Consent  
3 Judgment entered by the Court, the Parties shall meet and confer in person, by telephone, and/or  
4 in writing and endeavor to resolve the dispute in an amicable manner. No action or motion may  
5 be filed in the absence of such a good faith attempt to resolve the dispute beforehand.

6     **16. ENFORCEMENT**

7             ERC may, by motion or order to show cause before the Superior Court of Alameda  
8 County, enforce the terms and conditions contained in this Consent Judgment. In any action  
9 brought by ERC to enforce this Consent Judgment, ERC may seek whatever fines, costs,  
10 penalties, or remedies as are provided by law for failure to comply with the Consent Judgment.  
11 To the extent the failure to comply with the Consent Judgment constitutes a violation of  
12 Proposition 65 or other laws, ERC shall not be limited to enforcement of this Consent  
13 Judgment, but may seek in another action whatever fines, costs, penalties, or remedies as are  
14 provided by law for failure to comply with Proposition 65 or other laws.

15     **17. ENTIRE AGREEMENT, AUTHORIZATION**

16             **17.1** This Consent Judgment contains the sole and entire agreement and  
17 understanding of the Parties with respect to the entire subject matter herein, and any and all  
18 prior discussions, negotiations, commitments, and understandings related hereto. No  
19 representations, oral or otherwise, express or implied, other than those contained herein have  
20 been made by any Party. No other agreements, oral or otherwise, unless specifically referred to  
21 herein, shall be deemed to exist or to bind any Party.

22             **17.2** Each signatory to this Consent Judgment certifies that he or she is fully  
23 authorized by the Party he or she represents to stipulate to this Consent Judgment.

24     **18. REQUEST FOR FINDINGS, APPROVAL OF SETTLEMENT AND ENTRY OF**  
25 **CONSENT JUDGMENT**

26             This Consent Judgment has come before the Court upon the request of the Parties. The  
27 Parties request the Court to fully review this Consent Judgment and, being fully informed  
28 regarding the matters which are the subject of this action, to:

1 (1) Find that the terms and provisions of this Consent Judgment represent a fair and  
2 equitable settlement of all matters raised by the allegations of the Complaint that the matter has  
3 been diligently prosecuted, and that the public interest is served by such settlement; and

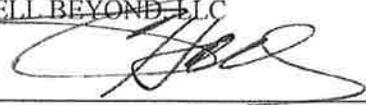

4 (2) Make the findings pursuant to California Health and Safety Code section  
5 25249.7(f)(4), approve the Settlement, and approve this Consent Judgment.

### NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the Executive Director of Environmental Research Center, Inc. (“ERC”). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

**Well Beyond, LLC**

**Consumer Products and Listed Chemicals.** The products that are the subject of this notice and the chemicals in those products identified as exceeding allowable levels are:

- 1. Beyond Shake Balanced Nutrition Meal Replacement Salted Caramel Vanilla - Lead**
- 2. Beyond Shake High-Antioxidant Meal Replacement Dark Chocolate - Lead**
- 3. Beyond Healthy Chocolate Xobiotic Squares – Lead, Cadmium**

April 11, 2019

Page 2

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

Cadmium was officially listed as a chemical known to cause developmental toxicity and male reproductive toxicity on May 1, 1997, while cadmium and cadmium compounds were listed as chemicals known to the State of California to cause cancer on October 1, 1987.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to these chemicals has been and continues to be through ingestion.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least April 11, 2016, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until these known toxic chemicals are either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemicals. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons ingesting these products with appropriate warnings that they are being exposed to these chemicals.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemicals, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemicals, as well as an expensive and time-consuming litigation.

Please direct all questions concerning this notice to ERC at the above listed address and telephone number.

Sincerely,

---

Chris Heptinstall  
Executive Director  
Environmental Research Center

Certificate of Merit

Certificate of Service

OEHHA Summary (to Well Beyond, LLC and its Registered Agents for Service of Process only)

Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Well Beyond, LLC**

I, Chris Heptinstall, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the Executive Director for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemicals that are the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: April 11, 2019

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as “Proposition 65”). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The “Proposition 65 List.”*** Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: [http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### *DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?*

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in Food.** Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4).

## *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at:  
<http://oehha.ca.gov/prop65/law/p65law72003.html>.

February 20, 2020

### NOTICE OF VIOLATIONS OF CALIFORNIA HEALTH & SAFETY CODE SECTION 25249.5 *ET SEQ.* (PROPOSITION 65)

Dear Alleged Violator and the Appropriate Public Enforcement Agencies:

I am the Executive Director of Environmental Research Center, Inc. (“ERC”). ERC is a California non-profit corporation dedicated to, among other causes, helping safeguard the public from health hazards by bringing about a reduction in the use and misuse of hazardous and toxic chemicals, facilitating a safe environment for consumers and employees, and encouraging corporate responsibility.

ERC has identified violations of California’s Safe Drinking Water and Toxic Enforcement Act of 1986 (“Proposition 65”), which is codified at California Health & Safety Code §25249.5 *et seq.*, with respect to the products identified below. These violations have occurred and continue to occur because the alleged Violator identified below failed to provide required clear and reasonable warnings with these products. This letter serves as a notice of these violations to the alleged Violator and the appropriate public enforcement agencies. Pursuant to Section 25249.7(d) of the statute, ERC intends to file a private enforcement action in the public interest 60 days after effective service of this notice unless the public enforcement agencies have commenced and are diligently prosecuting an action to rectify these violations.

**General Information about Proposition 65.** A copy of a summary of Proposition 65, prepared by the Office of Environmental Health Hazard Assessment, is attached with the copy of this letter served to the alleged Violator identified below.

**Alleged Violator.** The name of the company covered by this notice that violated Proposition 65 (hereinafter the “Violator”) is:

**Well Beyond, LLC**

**Consumer Products and Listed Chemical.** The products that are the subject of this notice and the chemical in those products identified as exceeding allowable levels are:

- 1. Beyond Xe Energy Multiplier Proprietary Blend of Superfruits + Cacao – Lead**
- 2. Beyond Healthy Chocolate Nuggets Dark Chocolate With Acai and Blueberry - Lead**
- 3. Beyond Healthy Chocolate X Power Squares Extreme Dark Chocolate With Acai & Blueberry - Lead**

On February 27, 1987, the State of California officially listed lead as a chemical known to cause developmental toxicity, and male and female reproductive toxicity. On October 1, 1992, the State of California officially listed lead and lead compounds as chemicals known to cause cancer.

It should be noted that ERC may continue to investigate other products that may reveal further violations and result in subsequent notices of violations.

**Route of Exposure.** The consumer exposures that are the subject of this notice result from the recommended use of these products. Consequently, the route of exposure to this chemical has been and continues to be through ingestion.

**Approximate Time Period of Violations.** Ongoing violations have occurred every day since at least February 20, 2020, as well as every day since the products were introduced into the California marketplace, and will continue every day until clear and reasonable warnings are provided to product purchasers and users or until this known toxic chemical is either removed from or reduced to allowable levels in the products. Proposition 65 requires that a clear and reasonable warning be provided prior to exposure to the identified chemical. The method of warning should be a warning that appears on the product label. The Violator violated Proposition 65 because it failed to provide persons ingesting these products with appropriate warnings that they are being exposed to this chemical.

Consistent with the public interest goals of Proposition 65 and a desire to have these ongoing violations of California law quickly rectified, ERC is interested in seeking a constructive resolution of this matter that includes an enforceable written agreement by the Violator to: (1) reformulate the identified products so as to eliminate further exposures to the identified chemical, or provide appropriate warnings on the labels of these products; (2) pay an appropriate civil penalty; and (3) provide clear and reasonable warnings compliant with Proposition 65 to all persons located in California who purchased the above products in the last three years. Such a resolution will prevent further unwarned consumer exposures to the identified chemical, as well as an expensive and time-consuming litigation.

Please direct all questions concerning this notice to ERC at the above listed address and telephone number.

Sincerely,

---

Chris Heptinstall  
Executive Director  
Environmental Research Center

- OEHHA Summary (to Well Beyond, LLC and its Registered Agent for Service of Process only)
- Additional Supporting Information for Certificate of Merit (to AG only)

**CERTIFICATE OF MERIT**

**Re: Environmental Research Center, Inc.'s Notice of Proposition 65 Violations by Well Beyond, LLC**

I, Chris Heptinstall, declare:

1. This Certificate of Merit accompanies the attached 60-day notice in which it is alleged the party identified in the notice violated California Health & Safety Code Section 25249.6 by failing to provide clear and reasonable warnings.

2. I am the Executive Director for the noticing party.

3. I have consulted with one or more persons with relevant and appropriate experience or expertise who have reviewed facts, studies, or other data regarding the exposure to the listed chemical that is the subject of the notice.

4. Based on the information obtained through those consultants, and on other information in my possession, I believe there is a reasonable and meritorious case for the private action. I understand that "reasonable and meritorious case for the private action" means that the information provides a credible basis that all elements of the plaintiff's case can be established and that the information did not prove that the alleged Violator will be able to establish any of the affirmative defenses set forth in the statute.

5. Along with the copy of this Certificate of Merit served on the Attorney General is attached additional factual information sufficient to establish the basis for this certificate, including the information identified in California Health & Safety Code §25249.7(h)(2), i.e., (1) the identity of the persons consulted with and relied on by the certifier, and (2) the facts, studies, or other data reviewed by those persons.

Dated: February 20, 2020

## APPENDIX A

### OFFICE OF ENVIRONMENTAL HEALTH HAZARD ASSESSMENT CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY

#### THE SAFE DRINKING WATER AND TOXIC ENFORCEMENT ACT OF 1986 (PROPOSITION 65): A SUMMARY

The following summary has been prepared by the California Office of Environmental Health Hazard Assessment (OEHHA), the lead agency for the implementation of the Safe Drinking Water and Toxic Enforcement Act of 1986 (commonly known as "Proposition 65"). A copy of this summary must be included as an attachment to any notice of violation served upon an alleged violator of the Act. The summary provides basic information about the provisions of the law, and is intended to serve only as a convenient source of general information. It is not intended to provide authoritative guidance on the meaning or application of the law. The reader is directed to the statute and OEHHA implementing regulations (see citations below) for further information.

FOR INFORMATION CONCERNING THE BASIS FOR THE ALLEGATIONS IN THE NOTICE RELATED TO YOUR BUSINESS, CONTACT THE PERSON IDENTIFIED ON THE NOTICE.

The text of Proposition 65 (Health and Safety Code Sections 25249.5 through 25249.13) is available online at: <http://oehha.ca.gov/prop65/law/P65law72003.html>. Regulations that provide more specific guidance on compliance, and that specify procedures to be followed by the State in carrying out certain aspects of the law, are found in Title 27 of the California Code of Regulations, sections 25102 through 27001.<sup>1</sup> These implementing regulations are available online at: <http://oehha.ca.gov/prop65/law/P65Regs.html>.

#### *WHAT DOES PROPOSITION 65 REQUIRE?*

***The "Proposition 65 List."*** Under Proposition 65, the lead agency (OEHHA) publishes a list of chemicals that are known to the State of California to cause cancer and/or reproductive toxicity. Chemicals are placed on the Proposition 65 list if they are known to cause cancer and/or birth defects or other reproductive harm, such as damage to

---

<sup>1</sup> All further regulatory references are to sections of Title 27 of the California Code of Regulations unless otherwise indicated. The statute, regulations and relevant case law are available on the OEHHA website at: <http://www.oehha.ca.gov/prop65/law/index.html>.

female or male reproductive systems or to the developing fetus. This list must be updated at least once a year. The current Proposition 65 list of chemicals is available on the OEHHA website at: [http://www.oehha.ca.gov/prop65/prop65\\_list/Newlist.html](http://www.oehha.ca.gov/prop65/prop65_list/Newlist.html).

Only those chemicals that are on the list are regulated under Proposition 65. Businesses that produce, use, release or otherwise engage in activities involving listed chemicals must comply with the following:

***Clear and reasonable warnings.*** A business is required to warn a person before “knowingly and intentionally” exposing that person to a listed chemical unless an exemption applies. The warning given must be “clear and reasonable.” This means that the warning must: (1) clearly make known that the chemical involved is known to cause cancer, or birth defects or other reproductive harm; and (2) be given in such a way that it will effectively reach the person before he or she is exposed to that chemical. Some exposures are exempt from the warning requirement under certain circumstances discussed below.

***Prohibition from discharges into drinking water.*** A business must not knowingly discharge or release a listed chemical into water or onto land where it passes or probably will pass into a source of drinking water. Some discharges are exempt from this requirement under certain circumstances discussed below.

#### *DOES PROPOSITION 65 PROVIDE ANY EXEMPTIONS?*

Yes. You should consult the current version of the statute and regulations (<http://www.oehha.ca.gov/prop65/law/index.html>) to determine all applicable exemptions, the most common of which are the following:

***Grace Period.*** Proposition 65 warning requirements do not apply until 12 months after the chemical has been listed. The Proposition 65 discharge prohibition does not apply to a discharge or release of a chemical that takes place less than 20 months after the listing of the chemical.

***Governmental agencies and public water utilities.*** All agencies of the federal, state or local government, as well as entities operating public water systems, are exempt.

***Businesses with nine or fewer employees.*** Neither the warning requirement nor the discharge prohibition applies to a business that employs a total of nine or fewer employees. This includes all employees, not just those present in California.

**Exposures that pose no significant risk of cancer.** For chemicals that are listed under Proposition 65 as known to the State to cause cancer, a warning is not required if the business causing the exposure can demonstrate that the exposure occurs at a level that poses “no significant risk.” This means that the exposure is calculated to result in not more than one excess case of cancer in 100,000 individuals exposed over a 70-year lifetime. The Proposition 65 regulations identify specific “No Significant Risk Levels” (NSRLs) for many listed carcinogens. Exposures below these levels are exempt from the warning requirement. See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of NSRLs, and Section 25701 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures that will produce no observable reproductive effect at 1,000 times the level in question.** For chemicals known to the State to cause reproductive toxicity, a warning is not required if the business causing the exposure can demonstrate that the exposure will produce no observable effect, even at 1,000 times the level in question. In other words, the level of exposure must be below the “no observable effect level” divided by 1,000. This number is known as the Maximum Allowable Dose Level (MADL). See OEHHA's website at: <http://www.oehha.ca.gov/prop65/getNSRLs.html> for a list of MADLs, and Section 25801 *et seq.* of the regulations for information concerning how these levels are calculated.

**Exposures to Naturally Occurring Chemicals in Food.** Certain exposures to chemicals that naturally occur in foods (i.e., that do not result from any known human activity, including activity by someone other than the person causing the exposure) are exempt from the warning requirements of the law. If the chemical is a contaminant<sup>2</sup> it must be reduced to the lowest level feasible. Regulations explaining this exemption can be found in Section 25501.

**Discharges that do not result in a “significant amount” of the listed chemical entering any source of drinking water.** The prohibition from discharges into drinking water does not apply if the discharger is able to demonstrate that a “significant amount” of the listed chemical has not, does not, or will not pass into or probably pass into a source of drinking water, and that the discharge complies with all other applicable laws, regulations, permits, requirements, or orders. A “significant amount” means any detectable amount, except an amount that would meet the “no significant risk” level for chemicals that cause cancer or that is 1,000 times below the “no observable effect” level for chemicals that cause reproductive toxicity, if an individual were exposed to that amount in drinking water.

---

<sup>2</sup> See Section 25501(a)(4).

## *HOW IS PROPOSITION 65 ENFORCED?*

Enforcement is carried out through civil lawsuits. These lawsuits may be brought by the Attorney General, any district attorney, or certain city attorneys. Lawsuits may also be brought by private parties acting in the public interest, but only after providing notice of the alleged violation to the Attorney General, the appropriate district attorney and city attorney, and the business accused of the violation. The notice must provide adequate information to allow the recipient to assess the nature of the alleged violation. The notice must comply with the information and procedural requirements specified in Section 25903 of Title 27 and sections 3100-3103 of Title 11. A private party may not pursue an independent enforcement action under Proposition 65 if one of the governmental officials noted above initiates an enforcement action within sixty days of the notice.

A business found to be in violation of Proposition 65 is subject to civil penalties of up to \$2,500 per day for each violation. In addition, the business may be ordered by a court to stop committing the violation.

A private party may not file an enforcement action based on certain exposures if the alleged violator meets specific conditions. For the following types of exposures, the Act provides an opportunity for the business to correct the alleged violation:

- An exposure to alcoholic beverages that are consumed on the alleged violator's premises to the extent onsite consumption is permitted by law;
- An exposure to a Proposition 65 listed chemical in a food or beverage prepared and sold on the alleged violator's premises that is primarily intended for immediate consumption on- or off-premises. This only applies if the chemical was not intentionally added to the food, and was formed by cooking or similar preparation of food or beverage components necessary to render the food or beverage palatable or to avoid microbiological contamination;
- An exposure to environmental tobacco smoke caused by entry of persons (other than employees) on premises owned or operated by the alleged violator where smoking is permitted at any location on the premises;
- An exposure to listed chemicals in engine exhaust, to the extent the exposure occurs inside a facility owned or operated by the alleged violator and primarily intended for parking non-commercial vehicles.

If a private party alleges that a violation occurred based on one of the exposures described above, the private party must first provide the alleged violator a notice of special compliance procedure and proof of compliance form.

A copy of the notice of special compliance procedure and proof of compliance form is included in Appendix B and can be downloaded from OEHHA's website at:  
<http://oehha.ca.gov/prop65/law/p65law72003.html>.
