Re: Proposition 65 Notice of Violation

To Whom It May Concern:

We represent Kim Embry, a citizen of the State of California acting in the interest of the general public. This letter serves as notice that the parties listed above are in violation of Proposition 65, the Safe Drinking Water and Toxic Enforcement Act, commencing with section 25249.5 of the Health and Safety Code ("Proposition 65"). In particular, the violations alleged by this notice consist of types of harm that may potentially result from exposures to the toxic chemical Malathion. This chemical was listed as known to cause cancer on May 20, 2016.

The specific type of product that is causing exposures in violation of Proposition 65 is detailed below:

	<u>Product Name</u>	<u>Retailer</u>	<u>Manufacturer / Distributor</u>	<u>Item Number / UPC</u>
1.	Martin's Malathion 57%	Solutions Pest & Lawn	Control Solutions Inc,	UPC 072693446403

The routes of exposure to the chemical(s) in violation include dermal absorption, ingestion, and inhalation by consumers. These exposures occur through the reasonably foreseeable use of the products. The sales of this product has been occurring since at least May 20, 2017 and is continuing to this day and will continue to occur as long as the product subject to this notice is sold to and used by consumers.

Proposition 65 requires that a clear and reasonable warning is provided with this product regarding the exposures to Malathion, caused by ordinary use of the product. The Parties are in violation of Proposition 65 by failing to provide such warning to consumers and as a result of the sale of this product, exposures to Malathion have been occurring without proper warning.
