Re: Withdrawal of Proposition 65 Notice of Violation

Dear Messrs. Graff and Goggin:

Thank you for your last e-mail dated March 6, 2025 regarding your client CURED Nutrition. You represented that you have verified that your client has had nine or fewer employees during the relevant time period. "Cured Nutrition has had 9 or fewer employees (even subject to the broader ABC threshold, including, for example, owners and officers) during the entire time in question, dating back multiple years. Such conclusion can and will be demonstrably supported by our client's payroll and other records." You also explained that the company's LinkedIn listing showing more than ten employees was erroneous and had been corrected.

Given the duty of candor which binds our profession and the fact that as attorneys you are Officers of the Court, your representations are respectfully accepted. In view of your representations, the 60-Day Notice of Violation will be withdrawn and you can consider this matter closed. Thank you for your attention.

Very truly yours,

Omar Figueroa

Omar Figueroa, Esq.
